Product Description

DR Rear Tine Rototiller

A powerful OHV engine and aggressive counter-rotating tines gives the DR Rear Tine Tiller the extra muscle you need for sod-busting, and makes all types of soil preparation fast and easy. Power driven wheels can be released with a pin for free-wheeling when needed to travel or maneuver the tiller.

Product Summary

- Engine: 209 cc, 10.2 ft-lbs gross torque, OHV
- Counter Rotating Tines
- Tilling Width: 16"
- Wheels: 13" pneumatic

Warranty Coverage

- Machine: 2 years residential, 90 days commercial
- Engine: 2 years residential, 90 days commercial

Features

Power Driven Wheels The tractor style pneumatic tires propel the tiller forward easily in almost any terrain. The wheels can be released with a pin for free-wheeling when needed to travel or maneuver the tiller.

Counter Rotating Tines (CRT) The tines rotate in opposition to the powered wheels, creating an aggressive tilling action. This helps hold the tiller back, preventing it from leap-frogging forward during heavier uses, like sod-busting or deep tilling in heavy clay soil.

Drag Stake and Debris Shield The drag stake provides extra resistance. When not needed, it can be raised and pinned in place. The debris shield protects operator from thrown soil.

Powerful Engine Easy-starting, OHV engine has 10.2 ft-lbs gross torque (209cc). 3700 RPM and cast iron cylinder sleeve. Warranted for 2 years (90 days in commercial use).
